Award-Winning Care

We are accredited by The Joint Commission, the nation's leading healthcare accrediting agency, which reflects our commitment to providing the safest and most effective care possible.

We are the first acute rehabilitation facility in a five-state area to be accredited for our comprehensive, integrated inpatient rehabilitation programs by the Commission on Accreditation of Rehabilitation Facilities (CARF).

General Rehabilitation

Responsive: Our patients are welcomed into our hospital care as soon as possible after their injury or illness.

■ Regional average days until care
■ AHC Rehab average days until care

Balanced: We understand the complexities that both men and women face in their rehabilitation.

Program	60% male	40% female
General	60% male	40% female
Orthopedic	38% male	62% female

Effective: Our patients achieve their goals in a short length of time so they can return home faster.

■ Regional average days of stay
■ AHC Rehab average days of stay

Results-oriented: In order to ensure the best outcomes, we measure how much each patient has improved each day. Our patients' daily improvement is among the highest in the region.

General **28%** Orthopedic **22%**

higher daily improvement
than the average regional patient

Personalized: We treated patients ranging from 20 to 98 years of age in our general and orthopedic programs, with the average being 73 years of age.

Compassionate: Our patients consistently report positive satisfaction ratings about our hospital and care to an independent auditor.

Customized: Our patients receive intensive rehabilitation therapy. Our general and orthopedic program patients on average participated in 16 hours of therapy a week.

Successful: More than 76% of our general patients and 81% of our orthopedic patients returned to their home after leaving our hospital.

Some patients' needs were best met by other support, including care in an acute-care hospital or in a skilled nursing facility.
